

Inmobel

DESIGNER FURNITURE

From its very inception, the vision of INSIGHT GROUP has been to become a best-in-class full service organization adhering to our mission of quality and integrity in business practices. One of my greatest beliefs is that inspiration for our vision comes from our continual ability to dream. Perhaps this is what sets us apart from the rest our motto that with hard work, commitment and dedication, there are no milestones that we cannot achieve . At Insight we strive to maintain a focus on “people” – communicating, consulting, advising and completing projects with a human touch.

Our group has nurtured a long and established history, growing from as we like to say “ the inside out”. This means new lines of business emerged in support of growing consumer demands for our product and service offerings, first in the area of interior designng and then later diversifying into Architecture, construction, turnkey executions of interior design and architectural projects.

INMOBEL is yet another brand extension of Insight into designer furniture using state of the art technology to manufacture precise and aesthetic modular kitchens, doors, windows, office and bedroom furniture. It is the perfect missing link which irons out the gap between the imprecision of handmade furniture and the exorbitant cost of European furniture.

INSIGHT GROUP has always translated its pursuit for excellence into continuing long term expansion plans, INMOBEL being the latest edition to the list. I know that our commitment to being the very best along with your support will continue to lead us in more successful directions.
